

Science

Animal habitats

- Pupils will explore and identify the key features of an underwater habitat.
- Pupils can begin to classify and identify features of animals that live on land or in the sea.

We are going to be looking at 3 different types of habitats.
The Ocean, The Land and The Sky.

Water

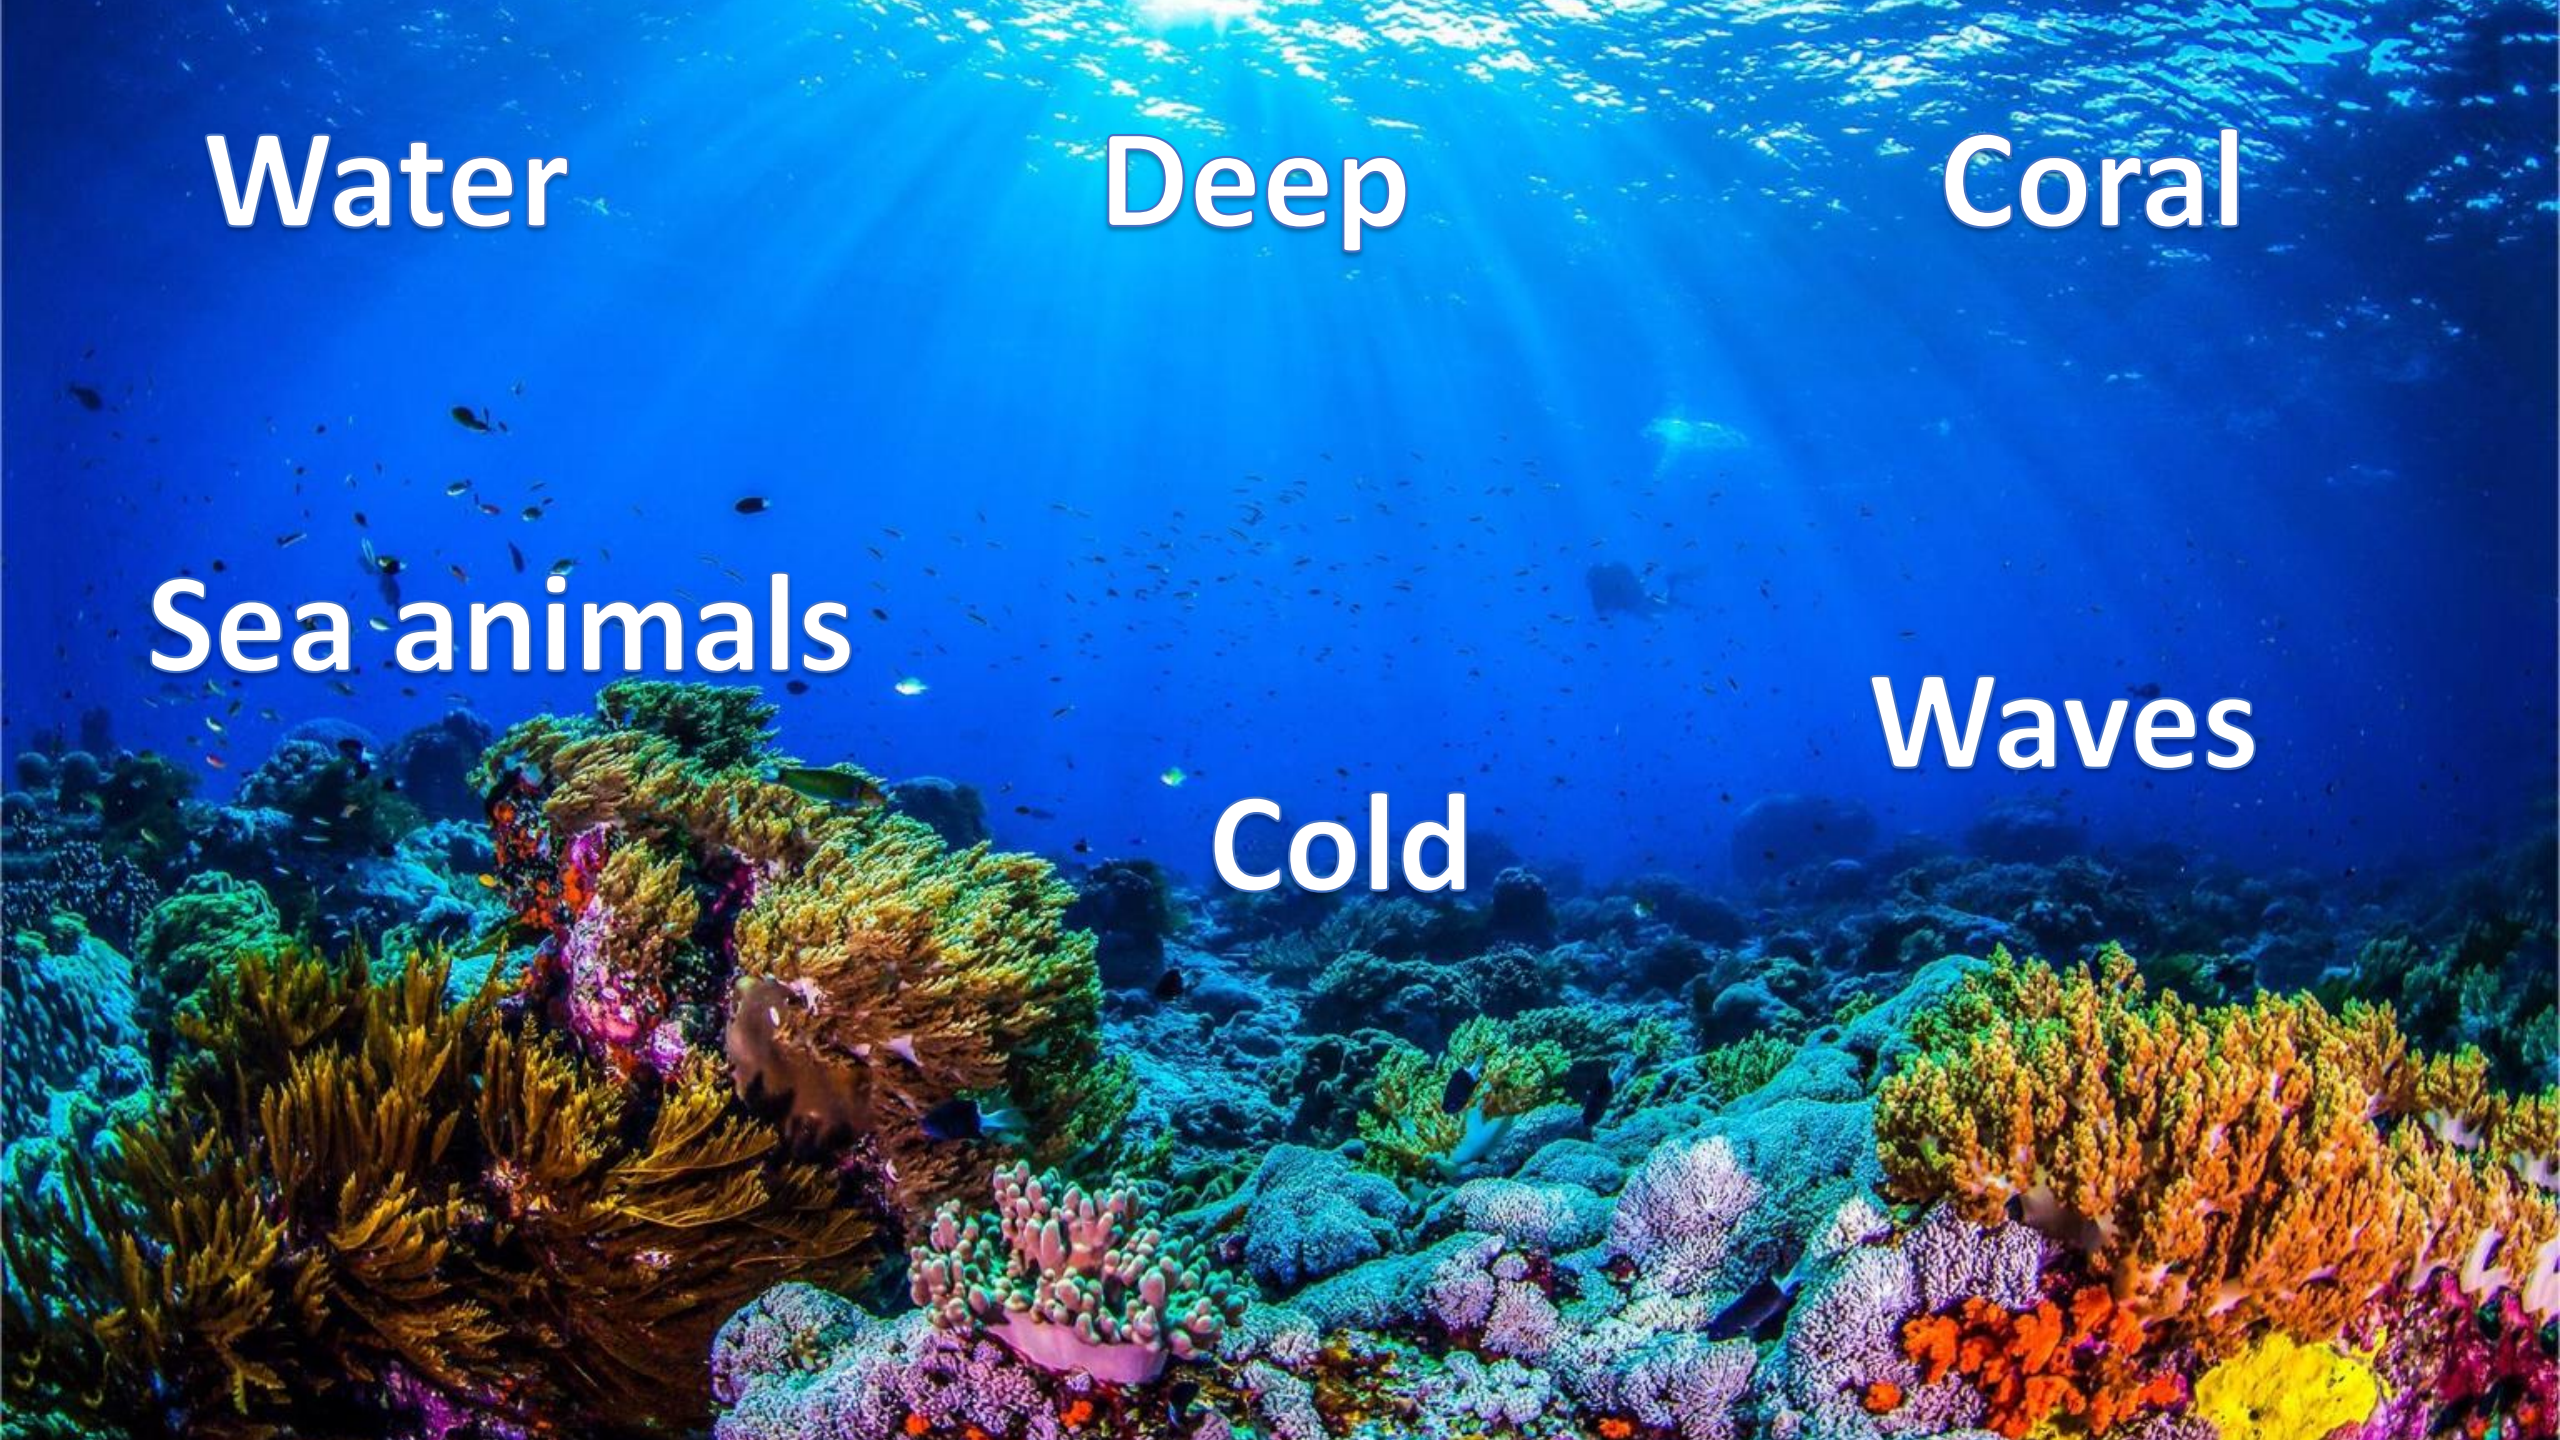

Deep

Coral

Sea animals

Waves

Cold

An aerial photograph of a rural landscape. In the foreground, a large, vibrant green field dominates the view. To the left and right of this field are dense areas of trees. In the background, a large, continuous forest stretches across the horizon under a blue sky with scattered white clouds. A small farmstead with a barn and a field is visible in the middle ground.
